NUEVA DAYA BUNGALOWS

QUALITY SPECIFICATIONS

FOUNDATIONS AND STRUCTURE

- Reinforced concrete structure which follows the current earthquake resistant regulations. It is configured by pillars, unidirectional floor structure and metal structure stairs.

FACADE

- Made of double-cavity brick 12 cm thick -plastered on the inside-, external wall cavity 3 cm thick, thermal insulation XPS 6 cm thick and double-cavity brick 7cm thick (preventing heat loss in winter and an excess of it in summer). One-coat render finish and first quality stoneware on the outside.

CARPENTRY

- Exterior Carpentry: PVC windows and doors, folding or sliding opening according to the design, with thermal bridge breaking that ensures a perfect insulation.

PAVING

- External and internal paving made of first quality stoneware in neutral colours.

GLAZING

- Double glazing, low emission, CLIMALIT 3+3/12/3+3 class, or similar

ELECTRICAL LIGHTING

- Fittings: Niessen Zenit brand in white or similar color.
- Lights: downlights inside the house.
- TV sockets in living room, bedrooms and terrace.
- Telephone sockets in living room and bedrooms.
- Living room and bedrooms have access to telecommunications services.

NOTA: The Developer reserves the right to make during the course of the execution of the work necessary modifications, by technical requirements or for legal or commercial reasons.
